

LIGHT COMMERCIAL VEHICLE

GAZelle NEXT VAN

Movement with Comfort...

TITANIUM*

SILVER LIGHT*

WHITE

RED GOLD

Feel comfortable when driving a GAZelle NEXT bus due to adjustable and energy-absorbing steering column.

Uniform area of the passenger compartment is light gray made of molded panels covered with needed material that ensure aesthetics, excellent sound insulation and practicality.

Passenger seats accommodate every body shape and ensure comfortable body position.

Design of the cabin includes high side door opening and low step with electro-mechanical drive to ensure that passengers get in and off the bus with comfort. The step extends automatically when the side sliding door starts to open and retracts when the door is closed.

Passenger compartment window panels are made of molded ABC plastic that makes wet cleaning of the cabin easy. Ten LED lamps are installed evenly along the passenger compartment providing dimmed light. The floor is covered with wear-resistant anti-slip material.

SPECIFICATIONS

Model Code	A65R32	A65R35
ENGINE	Diesel	Petrol LPG
Engine Model	Cummins ISF2.8s4R148	Evotech A2755
Emission Standard	Euro 4	Euro 5
Displacement	2800 cc	2690 cc
Type	Turbocharged diesel with intercooler	Dual-fuel, 4-stroke , injection
No. of Cylinder		4 cyl. In-line
Compression Ratio	16.5	10
Max. Power Output	149.6 hp / 3400 rpm	(106.8 hp / 4000 rpm) (104.3hp / 4000rpm)
Max. Torque	330 nm / 1800-2600 rpm	220.5 nm/2200-2500 rpm 219 nm/2200-2500 rpm
Fuel Tank Capacity		80 L
TRANSMISSION		
Clutch	Single-disk , dry , with hydraulic drive	
Gear Box	Mechanical, Five (5) Speed MT	
Differential	Bevel , gear type	
STEERING CONTROL		
Steering	Integral (with hydraulic power steering) rack type	
Steering Column	Adjusted by tilt angle	
SUSPENSION		
Front	Independent, on transverse levers with coiled springs with a transverse stabilizer	
Rear	Two longitudinal, half elliptic springs with additional springs	
Shock Absorbers	Four, gas-filled, telescopic, double acting	
BRAKES		
Primary Braking System	Dual -circuit with hydraulic drive and vacuum booster, with ABS (Anti-Lock Brake System)	
Braking Mechanism:		
Front Wheels	Disc type brakes	
Rear Wheels	Drum type brakes	
TIRES	185/75R16C	
DIMENSIONS		
Overall - Length (mm)	6415	
Width (mm)	2513	
Height (mm)	2837	
PARAMETERS		
Seating Capacity	17 (including driver)	
Gross Vehicle Weight	4166 kg	
Curb Weight	2801 kg	
Minimum Turning Radius	6.5 m	
BODY		
All metal, semi-hood type, with five doors Two open-wide cabin doors, side sliding doors and two open-wide rear doors of the passenger compartment		
OTHER FEATURES		
High roof cabin, high side door opening, auto-retractable step board, convenient safety grab handles, emergency escape and vent hatch, cruise control, multiple drink bottle holders
